FIELD REPAIR KIT INFORMATION

In the event of an accident in which the kayak has sustained damage the # 1 priority is to retrieve as much of the kayak as possible. The more parts that are swept away the greater the likelihood that repairs are impossible.

The basic field kit enables you to undertake a wide range of repair possibilities.

Remember, your ability to improvise what you have and utilize what you can find in the natural world can put a damaged kayak into operational condition. **The addition of a multipurpose tool would be a great benefit in a repair situation.**

Practical Uses for items:

✱ Duct Tape-Hull, deck and frame ✱ Epoxy-Frame repair and splints ✱ Glass bottle cement-sponson repair and deck repair (synthetic fabric only) ✱ Urethane material-sponson repair ✱ Wire-frame repair, rudder cable ✱ Needles & thread-sewing all fabrics ✱ Birch Splints-splinting frame members ✱ Rivets & screws-frame repair ✱ Nicropress-rudder cable repair ✱
